

2017 GENDER PAY GAP REPORT

LUXFER GAS CYLINDERS LIMITED

At Luxfer Gas Cylinders Limited, we recognise the value in diversity as a key differentiator. As such, we are committed to actively and aggressively reducing our gender pay gap.

Pay & Bonus Gap

| | Difference between men and women | |
|------------------|----------------------------------|--------|
| | Mean | Median |
| Hourly fixed pay | 10% | 4% |
| Bonus paid | 31% | -6% |

The table above shows our overall mean and median gender pay gap based on hourly rates of pay as at the snapshot date (i.e. 5 April 2017). It also captures the mean and median difference between bonuses paid to men and women at Luxfer Gas Cylinders Ltd in the year up to 5 April 2017. This would be for the 2016 performance year in relation to the payment of a cash bonus, and in relation to 2016 and previous years for the awarding of share options, since the bonus calculation is based upon when an employee incurs a charge to income tax, which is derived from the point in time at which the employee chooses to exercise their share awards.

Proportion of colleagues awarded a bonus

This shows a -3% difference between the number of men and women being paid a bonus for their performance in 2016, or previous years in the case of share awards.

Pay Quartiles

The above charts illustrate the gender distribution at Luxfer Gas Cylinders Ltd across four equally sized quartiles, each containing just under 85 colleagues.

We firmly recognise and agree that men and women should be paid equally for doing equivalent jobs across our business and we are taking bold steps to rectify any discrepancies which may exist in our Company.

I confirm the data reported is accurate.
